CONTENTS FOR

FLUID MECHANICS–Soviet Research

Volume 4, Nos. 1-6, 1975

Number 1

1 **Pulsations in the Transient Stream of an Expanding Flow as a Function of Turbulence in the Initial Expansion Section**
A. N. Rakhmanov and G. V. Stepanovich

17 **Internal Friction and Lateral Particles Interaction in High-Density Slurry Flows**
M. A. Dement'yev

29 **Stratified Flows Produced upon Discharge of Hot Power-Plant Effluents into Cooling Ponds and Rivers**
I. I. Makarov

43 **Experimental Tests of Diffusers with Boundary-Layer Control by Suction through Slots**
M. O. Frankfurt

52 **Tests of Short Diffusers at High Subsonic Velocities**
M. P. Ryabokon' and V. S. Yelkin

60 **Effect of a Diverging Inlet Passage on the Economy of Last Stages of Steam Turbines**
G. A. Bondarenko

66 **The Mixing Length in a Wall Boundary Layer**
V. G. Kalmykov, A. N. Sherstyuk and T. V. Shul'gina

70 **A Method for Calculating the Composition of an Nonideal Heterogeneous System**
I. B. Rozhdestvenskiy, A. L. Tsekis and V. N. Gutov

79 **Distribution in Plasma Electrons in an Electric Field**
O. Ye. Pushkarev

84 **A Jet Discharged Tangentially into a Cocurrent Stream**
I. T. Shvets and V. M. Repukhov

92 **Experimental Determination of Friction Factors in Certain Parts of the Cooling Passages of Deflector Blades**
I. T. Shvets and S. M. Chepaskina

97 **Flow Variables in Turbine Stages with Nonuniform Inlet Conditions**
Yu. I. Shvets, Yu. N. Zdorenko and T. M. Shan'ko

101 **The Motion of Aerosol Particles in an Electric Field at Reynolds Numbers Exceeding Unity**
I. P. Vereshchagin and V. S. Morozov

109 **A Pulsed Water Jet with Secondary Oscillations**
G. A. Atanov

113 **Experimental Investigation of Gas Flows in Pipes at High Subsonic Velocities**
I. Ye. Virozub, A. P. Fedosenko and A. S. Shvets

117 **Microstructure of Stabilized Turbulent Flow in a Duct with 1:3 Aspect Ratio and Rounded Off Corners**
Ye. P. Dyban, E. Ya. Epik and V. Ye. Filipchuk

121 **Pressure Losses in Flows through Porous Sintered Metals**
E. A. Maksimov and M. V. Stradomskiy

125 **A Method of Constructing a Two-Dimensional Potential Flow of an Incompressible Fluid**
Yu. I. Shvets, Yu. N. Zdorenko and S. I. Pavlyuk

129 **Concerning the Mechanism of Stability Loss of Beds in Tapered and Cylindrical-Tapered Vessels**
M. I. Rabinovich and Yu. G. Klimenko

136 **Concerning the Discharge of Boiling Fluids**
A. F. Babitskiy

139 **Critical Flow Regime of a Low-Quality Steam-Liquid Mixture in Convergent Nozzles**
E. I. Dryndrozhik

145 **Flow in Communicating Capillaries**
O. A. Kremnev, V. R. Borovskiy, V. A. Shelimanov and D. R. Prudyak

150 **Statistical Properties of the Near Wake of a Sphere**
L. N. Ukhanova

157 **The Rate of Liquid Takeup by Model Porous Bodies**
O. A. Kremnev, V. R. Borovskiy, V. A. Shelimanov, D. R. Prudyak and L. P. Pavlyuk

161 **Effect of Concentration of Pore Solution on the Electroosmotic Coefficient in Systems of Small Particles**
V. P. Duschenko, B. G. Ivanitskiy, I. T. Gorbachuk and V. N. Smola

164 **Liquid Residence Time in Film-Type Apparatus**
I. M. Fedotkin, Yu. T. Borshevskiy, M. N. Chepurnoy and V. E. Shnayder

169 **Calculation of Thermodynamic Functions of Highly Ionized Gases**
R. M. Bezpal'kov, I. I. Gutman and N. M. Kortsenshteyn

FLUID MECHANICS–Soviet Research

Volume 4, Nos. 1-6, 1975

Number 1

1 **Pulsations in the Transient Stream of an Expanding Flow as a Function of Turbulence in the Initial Expansion Section**
A. N. Rakhmanov and G. V. Stepanovich

17 **Internal Friction and Lateral Particles Interaction in High-Density Slurry Flows**
M. A. Dement'yev

29 **Stratified Flows Produced upon Discharge of Hot Power-Plant Effluents into Cooling Ponds and Rivers**
I. I. Makarov

43 **Experimental Tests of Diffusers with Boundary-Layer Control by Suction through Slots**
M. O. Frankfurt

52 **Tests of Short Diffusers at High Subsonic Velocities**
M. P. Ryabokon' and V. S. Yelkin

60 **Effect of a Diverging Inlet Passage on the Economy of Last Stages of Steam Turbines**
G. A. Bondarenko

66 **The Mixing Length in a Wall Boundary Layer**
V. G. Kalmykov, A. N. Sherstyuk and T. V. Shul'gina

70 **A Method for Calculating the Composition of an Nonideal Heterogeneous System**
I. B. Rozhdestvenskiy, A. L. Tsekis and V. N. Gutov

79 **Distribution in Plasma Electrons in an Electric Field**
O. Ye. Pushkarev

84 **A Jet Discharged Tangentially into a Cocurrent Stream**
I. T. Shvets and V. M. Repukhov

92 **Experimental Determination of Friction Factors in Certain Parts of the Cooling Passages of Deflector Blades**
I. T. Shvets and S. M. Chepaskina

97 **Flow Variables in Turbine Stages with Nonuniform Inlet Conditions**
Yu. I. Shvets, Yu. N. Zdorenko and T. M. Shan'ko

101 **The Motion of Aerosol Particles in an Electric Field at Reynolds Numbers Exceeding Unity**
I. P. Vereshchagin and V. S. Morozov

109 **A Pulsed Water Jet with Secondary Oscillations**
G. A. Atanov

113 **Experimental Investigation of Gas Flows in Pipes at High Subsonic Velocities**
I. Ye. Virozub, A. P. Fedosenko and A. S. Shvets

117 **Microstructure of Stabilized Turbulent Flow in a Duct with 1:3 Aspect Ratio and Rounded Off Corners**
Ye. P. Dyban, E. Ya. Epik and V. Ye. Filipchuk

121 **Pressure Losses in Flows through Porous Sintered Metals**
E. A. Maksimov and M. V. Stradomskiy

125 **A Method of Constructing a Two-Dimensional Potential Flow of an Incompressible Fluid**
Yu. I. Shvets, Yu. N. Zdorenko and S. I. Pavlyuk

129 **Concerning the Mechanism of Stability Loss of Beds in Tapered and Cylindrical-Tapered Vessels**
M. I. Rabinovich and Yu. G. Klimenko

136 **Concerning the Discharge of Boiling Fluids**
A. F. Babitskiy

139 **Critical Flow Regime of a Low-Quality Steam-Liquid Mixture in Convergent Nozzles**
E. I. Dryndrozhik

145 **Flow in Communicating Capillaries**
O. A. Kremnev, V. R. Borovskiy, V. A. Shelimanov and D. R. Prudyak

150 **Statistical Properties of the Near Wake of a Sphere**
L. N. Ukhanova

157 **The Rate of Liquid Takeup by Model Porous Bodies**
O. A. Kremnev, V. R. Borovskiy, V. A. Shelimanov, D. R. Prudyak and L. P. Pavlyuk

161 **Effect of Concentration of Pore Solution on the Electroosmotic Coefficient in Systems of Small Particles**
V. P. Duschenko, B. G. Ivanitskiy, I. T. Gorbachuk and V. N. Smola

164 **Liquid Residence Time in Film-Type Apparatus**
I. M. Fedotkin, Yu. T. Borshevskiy, M. N. Chepurnoy and V. E. Shnayder

169 **Calculation of Thermodynamic Functions of Highly Ionized Gases**
R. M. Bezpal'kov, I. I. Gutman and N. M. Kortsenshteyn

Number 2

1 **Physical Model of Slurry Flow**
M. A. Dement'yev

5 **The Kinematic Structure of Slurry Flow and Determination of the Relationship between Its Local and Overall Characteristics**
A. P. Yufin, I. V. Filimonova, V. K. Tarasov, N. V. Danil'chenko and N. T. Belova

9 **Distribution of Average Longitudinal Velocities Over the Cross-Sectional Area of a Two-Phase Flow in a Circular Pipe**
Yu. N. Krivenko and A. S. Nishchuk

15 **Hydraulic Characteristics of Slurries Whose Components Have Similar Specific Gravities**
A. L. Fonarev

22 **Computation of the Turbulent Boundary Layer on the Basis of the Effective-Viscosity Hypothesis**
G. V. Kocheryzhenkov and S. K. Matveyev

29 **Calculation of a Turbulent Boundary Layer with Injection Through the Porous Substrate**
G. V. Kocheryzhenkov and S. K. Matveyev

35 **Pressure Loss in Straight and Bent Metal-Tape Flexible Hose**
V. I. Khanzhonkov and N. F. Tarasov

42 **Experimental Study of Drag in Turbulent Flow of Liquid Along the Inlet and Main Sections of Rough Pipes**
V. V. Kuz'min, A. A. Tupichenkov and A. V. Fafurin

47 **High-Velocity Flow of Dilute Polymer Solutions**
I. K. Nikitin, N. G. Poznyaya and A. V. Dzevaltovskiy

52 **Experimental Determination of the Minimum Spraying Density in a Centrifugal Thin-Film Apparatus**
A. I. Butuzov, I. I. Pukhovoy and V. G. Rifert

57 **Variables of a Reacting, Turbulent Far Wake**
L. I. Skurin

65 **Flow of an Unsteady Gas Jet in a Tube Bundle**
V. S. Severyanin

69 **Aerodynamics of Cyclone Chambers in Non-Self-Similar Flow**
E. N. Saburov and S. V. Karpov

75 **The Dependence of Gas Pressure Fluctuations in a Vibrated Boiling Bed on the Vibration Parameters**
A. F. Ryzhkov and A. P. Baskakov

81 **Approximate, Locally-Nonlinear Solution of the Problem on Interaction between a Shock Wave and Rigid Wall**
Ye. F. Zhigalko

92 **The Effect of Vibrational and Dissociation Relaxation on the Flow Variables in a Viscous Shock Front**
L. A. Ladnova

107 **Calculation of Free-Surface Aerated Water Flows**
V. P. Troitskiy

117 **Effect of Normal Eddy Stresses on Flow Patterns**

124 **Model of a Turbulent, Diffusion-Controlled Flame Jet**
V. A. Frost

134 **Microstructure of Steady Turbulent Flow in a Flat Duct with Aspect Ratio of 1:9 and Rounded Corners**
Ye. P. Dyban, E. Ya. Epik and V. Ye. Filipchuk

139 **Evolution of Spatially Inhomogeneous Particle Distributions in the Linear Transport Theory**
B. Ye. Vugmeyster and O. A. Grechannyy

149 **Model of Gravity Separation of Polydisperse Material**
G. L. Babukha [dec]., A. A. Shrayber and V. N. Milyutin

154 **A Gas Ejector with a Helical Nozzle**
Yu. K. Arkadov

164 **Integro-Differential Description of Brownian Motion**
O. A. Grechannyy

Number 3

1 **Flow Stability and Criteria for Assessing It**
N. A. Kartvelishvili and G. P. Kumsiashvili

11 **A Generalized Model of Turbulence, Useful for Analysis of Condensed-Phase Formation in Turbulent Flows**
M. Ye. Deych and L. I. Seleznev

19 **Pressure Losses and Closure of Reynolds Equations in Steady Open-Channel Flows**
N. A. Kartvelishvili

31 **Propagation of a Jet Injected into Entraining Flow**
T. A. Fedorova

38 **Certain Problems in Two-Dimensional Vortex Flows of Incompressible Fluids**
V. S. Sadovskiy

47 **Rotation of a Spherical Float, Confined in a Vertical Stepped Cylindrical Screen, by a Fluid Flowing between the Float and the Screen**
E. M. Gadzhiyev, A. Sh. Kiyasbeyli and V. P. Smirnov

53 **Experimental Study of Cavities in the Wake of an Accelerated Disk**
A. A. Boldyrev

59 **Experimental Determination of Pressure Recovery Coefficients in Conical Diffusers at High Subsonic Velocities and Various Inlet Conditions**
Ya. L. Ginzburg and I. Ye. Idel'chik

68 **Aerodynamic Performance of Flat Diffusers with no Flow Separation**
A. S. Ginevskiy, A. V. Kolesnikov, I. N. Pedol'nyy and A. N. Smol'yaninova

89 **Interaction between a Baffle and Transients Gas Jets Emanating from Two- and Four-Nozzle Setups**
I. P. Ginzburg and Ye. A. Ugryumov

93 **Experimental Study of Underexpanded Jets Impinging Normally on a Plane Baffle**
I. P. Ginzburg, B. G. Semiletenko and V. N. Uskov

106 **Calculation of Additional Mass in the Initial Part of an Underexpanded Supersonic Jet**
B. A. Balanin and K. M. Shlyakhtina

111 **The Friction Factor and Additional Mass of a Supersonic Jet**
O. S. Zelenkov

118 **Evaluation of Integrals I_{kj} of the Chapman-Korst Mixing Theory**
O. S. Zelenkov and A. V. Yurkov

124 **Use of Cylindrical Nozzle Extensions in the Study of Interaction of Composite Jets**
B. A. Balanin and V. F. Maksimov

130 **Noise of a Supersonic Jet**
E. M. Bikart

133 **Pressure Fluctuations Produced by Four Coaxial Supersonic Jets on a Finite Baffle**
E. M. Bikart and V. A. Shirayev

138 **Effect of the Flame Front on the Aerodynamics of the Fuel-Oxidizer Jet**
V. P. Voychak

145 **Measurement of Water Velocity in the Laboratory**
T. Kh. Akhmedov, R. G. Saudov and I. P. Shag

150 **Population Inversion in Vibrational Levels of Molecules in Hypersonic Flow about Solid Bodies**
V. M. Kuznetsov

161 **Two Approaches to Description of Eddy Diffusion**
A. D. Girgidov

167 **Experimental Investigation of the Reflection of a Shock Wave from a Two-Facet Wedge**
I. P. Ginzburg and Yu. S. Markov

173 **Stability of a Plane Ionizing Shock Wave and the Plane Contact Discontinuity between Conducting and Nonconducting Media in a Magnetic Field**
O. A. Sinkevich

Number 4

1 **Elementary Equations of Two-Phase Flow**
A. N. Ganzhelo and S. V. Teplov

18 **Some Problems in Transition through the Speed of Sound in Two-Phase Flows**
I. T. Alad'yev and A. N. Ganzhelo

28 **Two-Phase Flows with Coalescence and Breakup of Droplets**
S. I. Alad'yev

35 **Local Characteristics of Two-Phase Flows at Nozzle Discharges**
I. M. Pchelkin, N. A. Kalakutskaya and I. F. Parfent'yeva

46 **Breakup of Water-Coal Slurry Drops in Air Flows**
M. R. Kurmangaliev and V. G. Nekrasov

54 **The Effect of Suspended Solids on the Characteristics of Highly Concentrated Two-Phase Flows**
V. V. Vyshenskiy, I. B. Palatnik, V. K. Oshlakov and E. P. Tsoy

61 **Laboratory Studies of Homogeneous and Two-Phase Constant Rotating Flows in Pipes**
V. A. Korzh

76 **Derivation of Approximate Conditions of Similitude under Which the Expansion of One Kind of Vapor-Liquid Mixture in a Laval Nozzle can be Simulated by Another Flow**
K. D. Voskresenskiy and Ye. S. Turilina

90 **Tests of Specially Shaped Axisymmetrical Supersonic Nozzles at Low Reynolds Numbers**
L. I. Kudryavtseva, I. I. Mezhirov, S. P. Ponomarev and V. L. Yakusheva

95 **Separation of a Turbulent Boundary Layer Upon Interaction with a Compression Shock in an Accelerating Supersonic Flow**
A. I. Tolmanov and V. V. Filatov

101 **Fluid Flow in Concentric Annular Channels and Eccentric Channel**
I. S. Riman

113 **Turbulent Flow of Dilute Polymer Solutions in Smooth Pipes**
I. K. Nikitin, N. G. Poznyaya and A. V. Dzevaltovskiy

123 **The Effect of Surface Forces on the Flow of Liquids in Porous Media**
N. V. Churayev

133 **Aerodynamics of Chemically Reacting (Flames) and Inert Jets in a Cocurrent Homogeneous Flow (Constant-Pressure and Gradient Flows)**
Sh. A. Yershin, R. P. Rybalova and Zh. Sarsenbayev

144 **The Effect of the Solid Phase of a Slurry on the Head Developed by a Centrifugal Pump**
A. N. Zarya

151 **The Critical Net Positive Suction Head of Centrifugal Pumps**
Abdelhafiz M. Sharif

156 **Measurement of the Effect of Flow Swirl on the Efficiency of Annular Ducts and Exhaust Nozzles of Axial Turbomachines**
S. A. Dovzhik and V. M. Kartavenko

Number 5

1 **Head Losses in Rotational Flow of Pure Water and Sand Slurries**
V. A. Korzh

10 **Calculation of Undulating [WAVY] Wall Films**
S. I. Alad'yev

15 **Air Flow in Eccentric Annuli**
Ye. A. Gostev and I. S. Riman

22 **Variable-Rate Rotating Flow in an Open Rectangular Channel**
T. A. Fedorova

33 **Critical Velocity of Low-Quality Wet Steam**
E. I. Dryndrozhik

40 **Comparison of Nozzle Discharge of Low-Quality Wet Steam and Potassium Vapor**
I. T. Alad'yev, I. S. Vartazarov, A. N. Ganzhelo, G. M. Zheltova, V. A. Mukhin and S. V. Teplov

52 **Measurement of Flow Characteristics fo Two-Phase Flow in Nozzles**
V. A. Dzhamardzhashvili and S. V. Teplov

57 **A Method for Determining the Properties of Two-Phase, Single-Component Flow Along a Nozzle**
V. A. Pakhorskiy, I. T. Alad'yev and R. A. Pishuk

72 **Errors in Determining the Efficiency of a Nozzle Operating with a Two-Phase Fluid by Measuring the Thrust**
I. A. Lepeshinskiy

78 **Determination of Parameters of Single-Component, Low-Quality Vapor-Liquid Mixtures at Nozzle Discharages**
I. T. Alad'yev, I. S. Vartazarov, A. N. Ganzhelo, G. M. Zheltova and S. V. Teplov

89 **Investigation of Ejectors with Two-Phase Flows of Water or Potassium**
I. T. Alad'yev, V. I. Kabakov and S. V. Teplov

99 **Calculation of the Flow in a Condensing Ejector**
V. F. Irodov and I. T. Alad'yev

103 **Approximate Theory of Ejector Startup**
L. V. Khurayev, V. D. Vorontsov and I. T. Alad'yev

112 **Measurement of Droplet-Size Spectrum in Two-Phase Flows from Low-Angle Light Scattering**
V. A. Pozharnov

120 **The Speed of Sound in Wet Steam Discharged from Convergent Nozzles**
E. I. Dryndrozhik and Ye. S. Turilina

123 **Frictional Drag in Condensation of Potassium Vapor in a Tube**
N. S. Kondrat'yev [Deceased] and I. T. Alad'yev

126 **Separation of High-Speed Two-Phase Flows**
I. M. Pchelkin, N. A. Kalakutskaya and I. F. Parfent'yeva

138 **Liquid Flowrate in Dispersed and Annular Gas-Liquid Flows**
V. A. Pozharnov

145 **Experimental Study of an Axisymmetric Jet in a Diverging and Converging Cocurrent Flow**
A. S. Ginevskiy and K. A. Pochkina

151 **Forces Acting on a Cylinder Transverse to an Impinging Circular Jet**
A. V. Kolesnikov and K. A. Pochkina

158 **Mass Transfer at the Wall of a Cyclone Chamber**
V. V. Vyshenskiy and V. Ye. Zuykov

Number 6

1 **A Physical Model of a Turbulent Liquid Flow at a Wall**
V. K. Lyakhov

8 **A Model of a Turbulent Boundary Layer as a Source of Pressure Fluctuations Field on a Surface in Flow**
A. A. Vishnyakov

18 **Pressure Distributions over Frontal (Nose) Surfaces of Bodies of Revolution in Transonic Flow at Angles of Attack $\alpha = 0$ to 10°**
P. G. Leutin

25 **The Hyperbolicity of Integral Equations of Momentum in a Three-Dimensional Incompressible Laminar Boundary Layer**
V. A. Barinov

32 **Experimental Study of Friction in a Channel with a Pseudoshock**
V. N. Ostras' and V. I. Penzin

39 **Effect of Viscosity on the Limiting Performance of a Gas Ejector with a Slotted Nozzle**
Yu. K. Arkadov

46 **Pressure Fluctuations Generated by Uniform Distortion of Homogeneous Turbulence**
V. A. Sabel'nikov

57 **Certain Aspects of Design of Nonisothermal Laminar Flow of Complex Rheological Fluids in Bearings**
Yu. M. Pikus

64 **Speed of Disturbance Waves in Conduits Conveying Aerated Water**
A. M. Shvaynshteyn

73 **Pressure Loss Coefficient in Two-Phase Flows in Vertical Tubes**
I. M. Fedotkin, A. A. Ruban, M. N. Nud'ga, V. P. Klochkov and V. T. Derevyanchenko

78 **Flow of Moisture over the Surface of Turbine Rotor Blades**
G. A. Filippov, A. M. Aleksandrov, O. A. Povarov and O. I. Nazarov

84 **Precipitation of Moisture in Elevated-Pressure Zones of Steam Turbines**
I. I. Kirillov, A. I. Nosovitskiy, G. G. Shpenzer and A. Sh. Tashpulatov

89 **A Method for Calculating the Expansion of Condensing Steam**
A. M. Zavodovskiy, A. I. Berkovich and R. I. Balygina

96 **Measurement of Motion of Fine Particles in a Gas Flow**
G. L. Grozdovskiy

108 **Effect of Gas Medium on the Dimensions of the Contact Area in High-Speed Droplet Impact on a Target**
R. G. Perel'man

114 **Reflection of Acoustic Waves from the Subcritical Inner Parts of Laval Nozzles**
N. V. Kokushkin

127 **The Thermodynamic Speed of Sound and Equation of State in Virial Form**
O. F. Susekov and G. Ya. Rudakov

132 **Thermodynamic Processes in Two-Component Flows with Phase Transitions**
M. N. Cherpurnoy, S. I. Tkachenko, A. D. Berkuta and V. E. Shnayder

138 **An Integro-Differential Equation in the Theory of Brownian Motion**
O. A. Grechannyy

146 **Experimental Determination of the Coefficient of Molecular Diffusion of a Gas in a Liquid**
B. N. Golubkov, Zh. R. Kuznetsova and L. V. Fedotova

152 **The Reliability of Methods of Measurement of the Total of Moisture Content of Nonuniformly Moist Matter**
R. E. Sitnyakovskiy

156 **Effect of Electrostatic Field on the Rate of Evaporation of a Charged Particle**
A. S. Kokin and B. G. Popov

163 **Electroosmotic Transport of Nonaqueous Media in Strong Electric Fields**
I. T. Gorbachuk, V. P. Duschenko and B. G. Ivanitskiy
